SAVAGE MODE.
Introducing the all-new Savage A40 welding helmet.
SAVAGE
A40

WITH RADICAL DESIGN CUES INSPIRED BY OUR BEST-SELLING SENTINEL™ A50 HELMET, A BRIGHTER VIEW, AND ENHANCED COLOUR DEFINITION, **THE SAVAGE A40 AUTOMATIC WELDING HELMET LETS OCCASIONAL AND PROFESSIONAL FABRICATORS ALIKE UNLEASH A NEW WORLD OF WELDING AND CUTTING PERFORMANCE.**

EXCEPTIONAL COMFORT.

Savage A40's lightweight shell comes with all-new adjustable headgear to provide exceptional comfort while protecting from heat, sparks, and spatter – no matter the application.

CRAZY OPTICAL PERFORMANCE.

We equipped Savage A40 with a 99.8 x 49.7 mm viewing area for a wider field of vision and greater spatial awareness. Its 1/1/1/2 optical-class lens features our ultra-clear true-color technology for increased weld pool clarity and enhanced definition. The result? A bigger, better view.

EXTREME TECHNOLOGY.

With Savage A40, the sensitivity and delay controls inside the helmet allow for seamless setting adjustments and Savage A40's four light sensors provide a faster auto-darkening response, especially when working out of position.

SENSITIVITY AND DELAY CONTROLS

WILD EXTERNAL FEATURES.

Just like Sentinel, Savage A40 comes with an externally activated grind mode button for superior convenience and its DIN 9–13 adjustment knob makes it easy to change shades, even while wearing a heavy glove.
